It's the first TV show I've seen since *The A Team* that's made me want to learn welding.

Before you pick up that arc-welder, I have a story I should tell you. A cautionary tale.

[March 26 2008, 11:32:30 UTC](#) [COLLAPSE](#)

Does it involve hurting your hand?

Oh, you've heard that one.

Bah. Corned beef is easy. Bacon's trickier, you have to build a smoker. Out of high school lockers and computer parts, if you listen to Alton. ;)

He lies!  [trollcatz](#) told me that bacon is the oily inner bark of the tropical bacon tree, and she would not mislead me!

 [trollcatz](#)

[March 26 2008, 15:31:05 UTC](#) [COLLAPSE](#)

I would not.

But think of the other stuff you could smoke in it!!!!

 [inaurolillium](#)

[March 26 2008, 18:21:03 UTC](#) [COLLAPSE](#)

Oh, all right. But the bark should still be smoked for to bring out the best flavor.

...Damn it  [trollcatz](#), didn't you READ that NDA? The Holy Bacon Empire isn't READY for Public Disclosure yet!

Damnit, do you have ANY idea of the cost of shipping a Ream of Leagaleze these days? Not even O could get this thing to fit in an e-mail attachment! GRARGH!

Ok, ok...can't kill him, whacking Feds = Bad Idea. Crap, I'm gonna have to come up with an oath or something, aren't I?

As an employee of the Federal government, I can't officially do anything for you until you've establish diplomatic relations. Keeping in mind the underground bacon economy in this country, however, it seems to me you'll have Most Favored Nations trade status before the ink is dry.

Using computer parts in your smoker sounds like a recipe for getting lots of tasty heavy metals (mmm, sweet sweet lead) in your bacon.

(You can at least clean the *eau de gym socks and frightened nerd* out of the lockers before using them...)

 [cvillette](#)

[March 26 2008, 12:42:37 UTC](#) [COLLAPSE](#)

Stuffing people into lockers = still not funny.

Someone, somewhere, undoubtedly is starting or has started the First Church of Alton Brown. Just imagine what you could do instead of wine and communion wafers!

So. Totally unrelated to this post, but I had to tell you that an example sentence in my grammar book today was:

"Of all the animals in the world, the platypus is unique."

 [cvillette](#)

March 27 2008, 11:24:34 UTC

COLLAPSE

Wooo!

makes a platypus muscle

...that was embarrassing, wasn't it?

 [trollcatz](#)

March 27 2008, 14:10:58 UTC

COLLAPSE

But grammatical!

 [beatriceeagle](#)

March 28 2008, 01:17:48 UTC

COLLAPSE

What distinguishes a platypus muscle from a human muscle? Something must, if it's unique.
